
LETTER OF RECOMMENDATION

Date: March 23 2021

To Whom It May Concern:

This is a letter of recommendation for Ms Katelynn Heasley, who was my student at the Fullstack Development Immersive Program (FSDI) in SDGKU during the period September 2020 to December 2020.

Ms. Heasley has a mature and constructive personality, and was an excellent student. She has demonstrated to be a self disciplined and self learning student who always exceeded the expectations during and after class. In coding, Ms. Heasley demonstrated to have passion for web development and specially in web-design and front-end development delivering stunning looking project far beyond the expectations of the assignments.

She is capable of performing at an entry level or higher in any fullstack development position. She is a good team collaborator and coordinator. She has both the creative and analytical skills needed for success in any kind of organization, whether it be in business, government or education. I recommend her highly.

I would be glad to provide any additional information on this recommendation upon request.

Sincerely,

Dr. Sergio Inzunza
